

# DataCite Descriptive Metadata

Use metadata to describe research outputs so they can be discovered

## SEARCH ENGINES

E.G. DATACITE COMMONS

The descriptive metadata helps us to easily understand what the resource is. We can set up searches and queries with keywords and controlled vocabulary to find it.

## SEARCH METADATA

## METADATA

- SUBJECT
- RIGHTS
- DESCRIPTION

DOI metadata is exposed with a CC0 license and indexed by search engines.

## CREATE METADATA

## RESEARCH OUTPUTS

Subject, Description and Rights information are included in the DataCite DOI metadata to describe the resource.
